

Now you can leave home and still get help 24/7 with MobileAlert — visit the grandchildren, go out to lunch, or shop at your favorite stores with full confidence.

The Help Button that goes anywhere you go.

It's the Perfect Solution for Active Seniors!

With MobileAlert, you can just get up and GO

Now you can go out and participate in all of your favorite activities — taking walks, lunching with friends or traveling — and still be able to get help in the event of a sudden fall or medical emergency. MobileAlert, the medical alarm service that uses GPS technology to follow you anywhere, ensures that professional help is your constant companion.

Get help wherever you are.

Mobile Alert is easy to use. With just a push of your Help button, our Personal Response Associate will locate you, answer your call and send the kind of assistance you need — a neighbor, a loved one, or emergency services — wherever you are. With GPS technology, we can send help to you even if you can't speak to us. MobileAlert gives you and your loved ones peace of mind knowing you can get help anywhere, anytime. With MobileAlert you're always good to go!

Did You Know...

- 1 out of 3 Americans age 65 and older fall at least once a year.
- Chances of surviving a fall are 6 times greater if you're found within the hour.
- The danger of permanent disability rises dramatically each minute a stroke victim is left unattended.
- Over 20% of the 1.6 million Americans who suffer heart attacks every year die because help didn't arrive on time.

"As an active senior, I can continue being active and not worry about getting help when necessary. It also brings peace of mind to my family."

- Irene M., Houston, TX

Today's GPS technology makes it all happen.

The MobileAlert Response Center sends help to you wherever you are.

Our proven, trusted GPS technology uses a sophisticated satellite-based system to update your location information. When you press your Help Button, your latest location coordinates are sent to our Response Center, pinpointing your location and transmitting your unique ID.

Our trained Personal Response Associate communicates with you, assesses your situation and sends the appropriate help — to your home or wherever you are. MobileAlert service also includes nationwide coverage on the AT&T network.

You can **GO** anywhere with **MobileAlert!**
