

Your partner in care.

Two of the most comforting words in the English language are “nursing” and “home.” Yet, when these two words are combined, the prospect of a “nursing home” can generate a wide range of conflicting emotions.

It’s never easy to acknowledge the physical limitations of age, illness or injury. And, making a decision with regard to a nursing home can be challenging.

With The Eddy, you have a partner in care. And because we’re part of St. Peter’s Health Partners, that partnership brings you a full circle of care ... for every stage of your life.
