Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

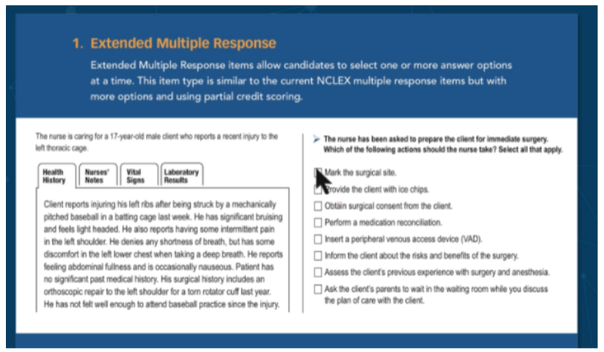
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

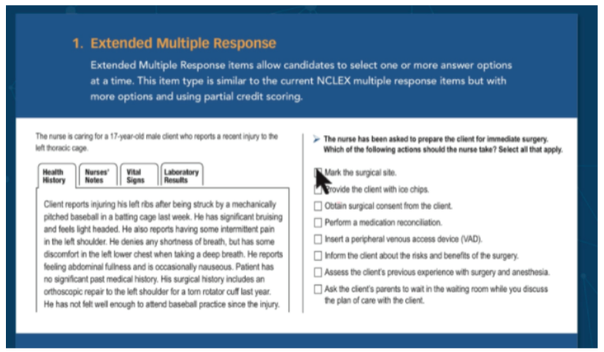
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

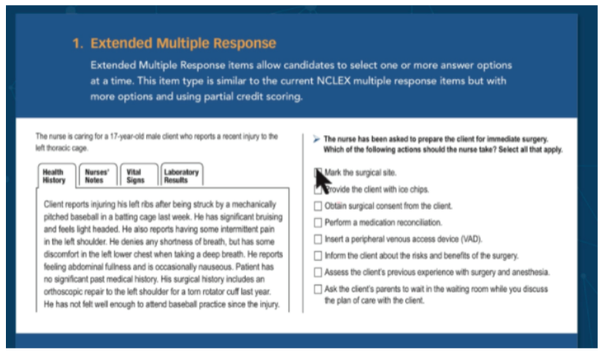
It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

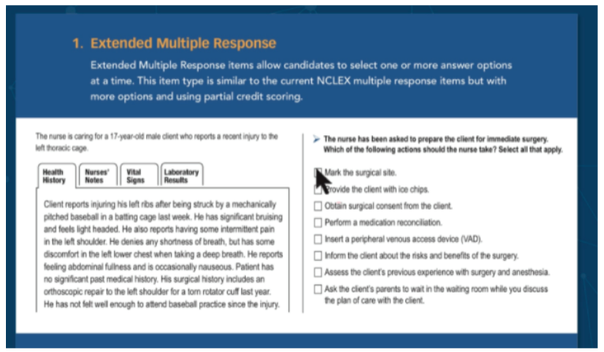
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

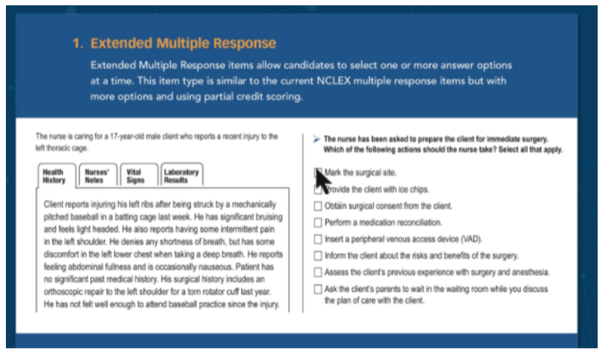
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

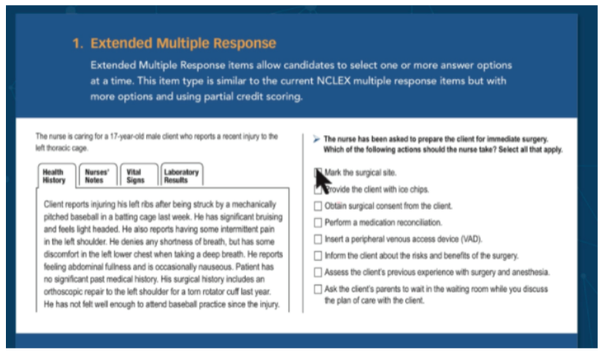
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

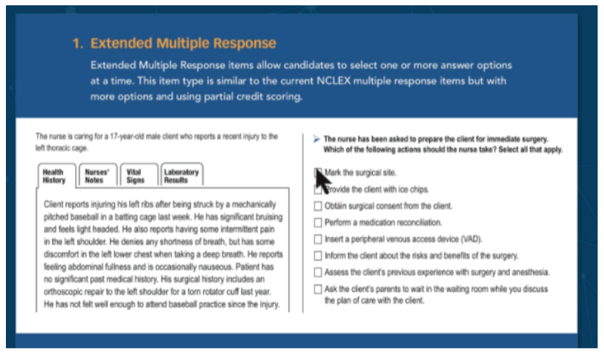
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

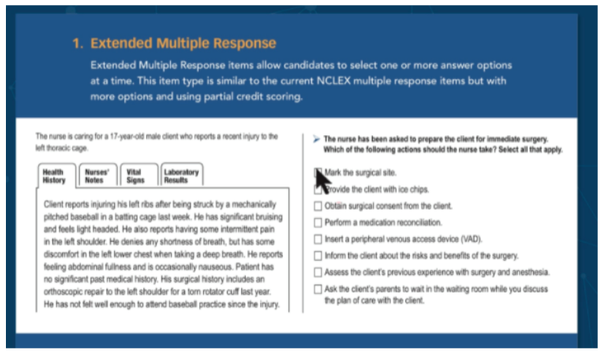
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

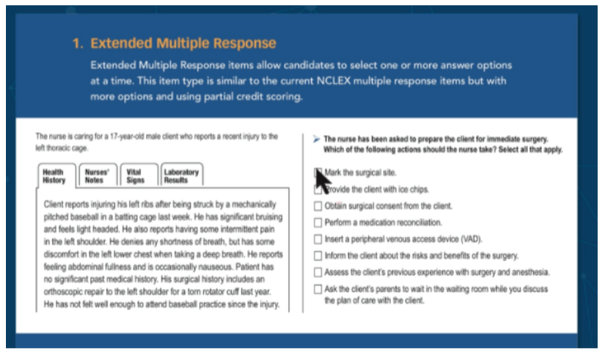
Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

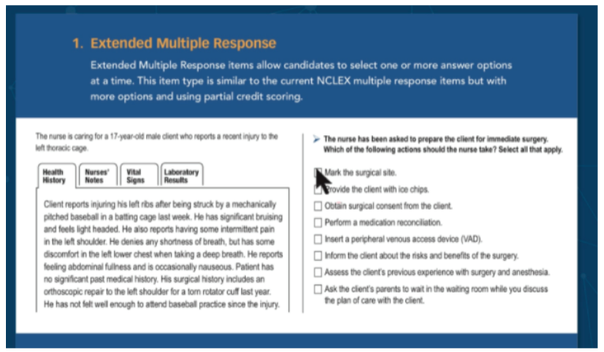
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

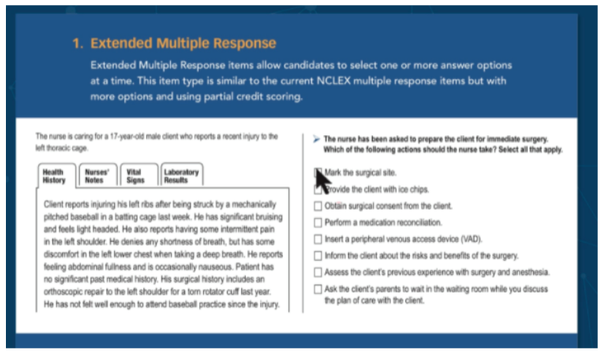
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

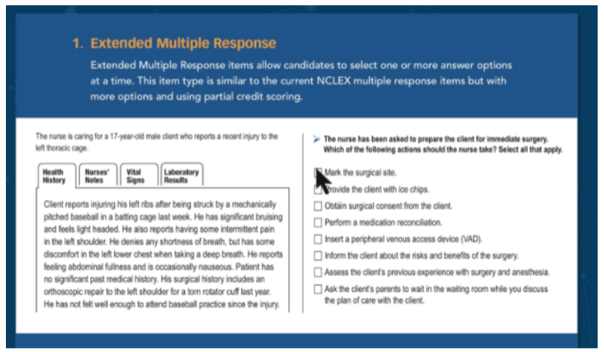
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

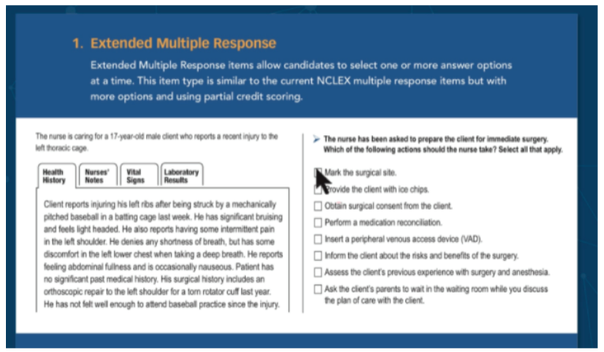
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

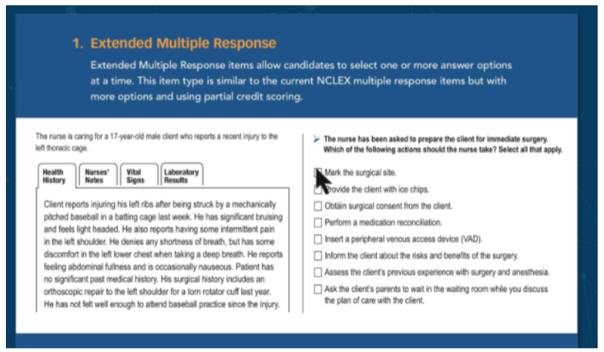
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

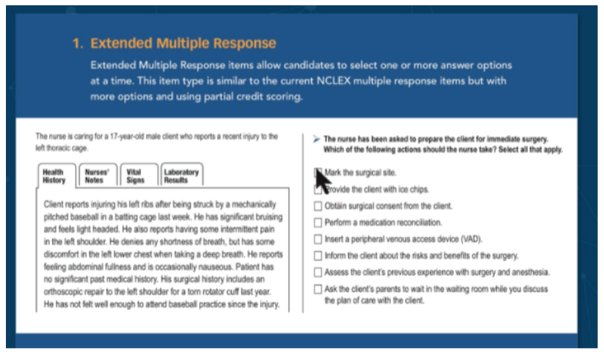
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

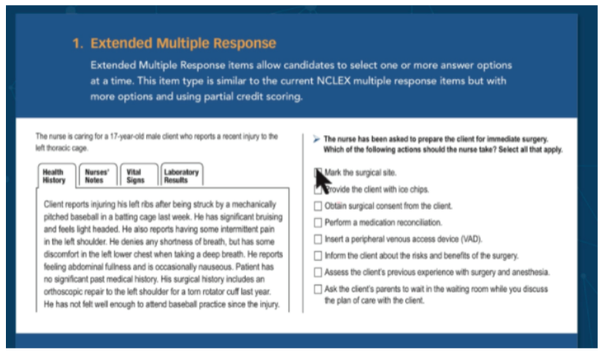
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

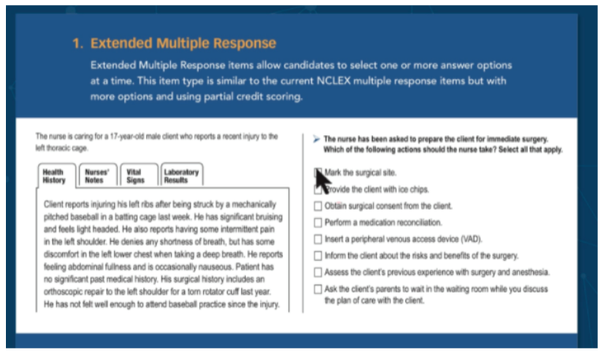
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

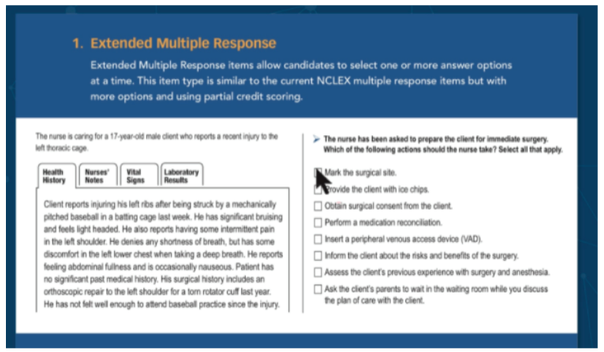
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

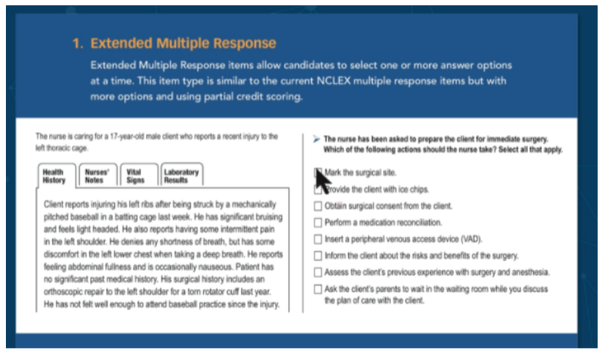
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

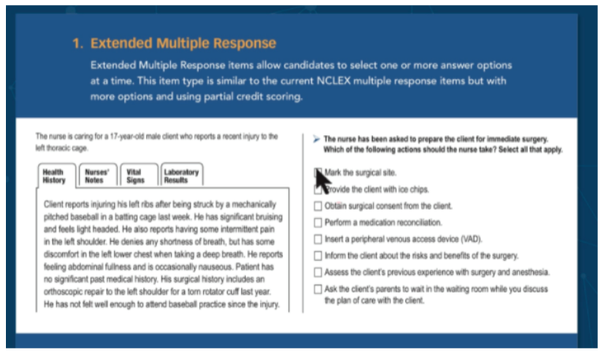
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

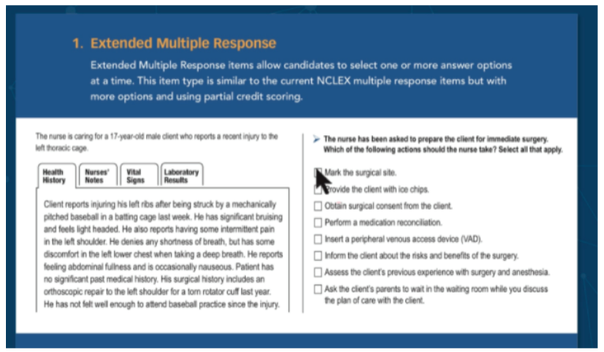
From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

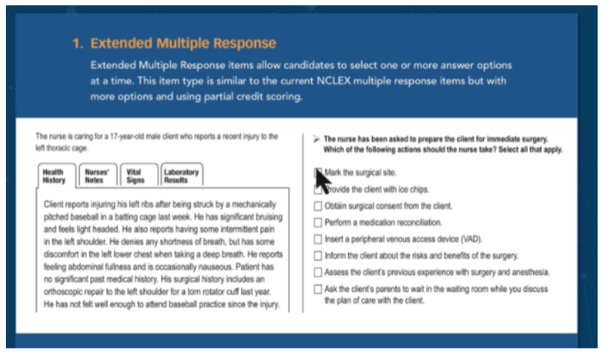
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Mrs. Mary Beth Holleger '81
2101 Canyon Cir
Costa Mesa, CA 92627-6819

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

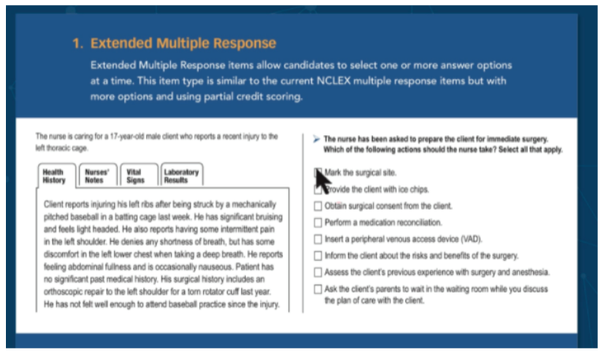
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

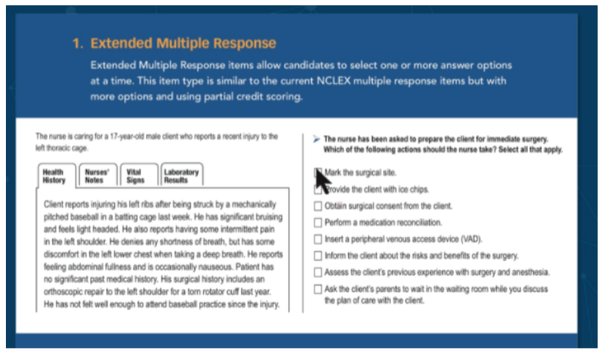
But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

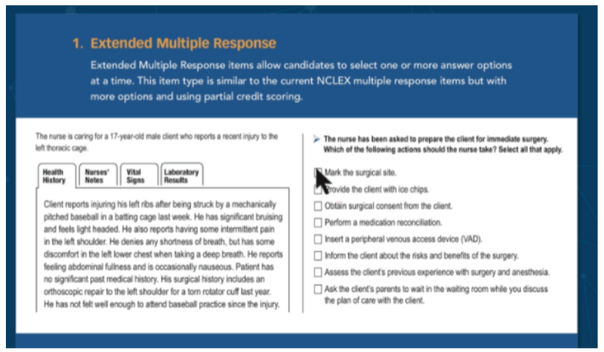
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

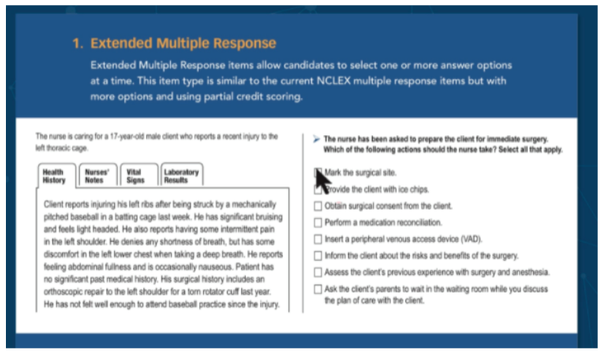
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

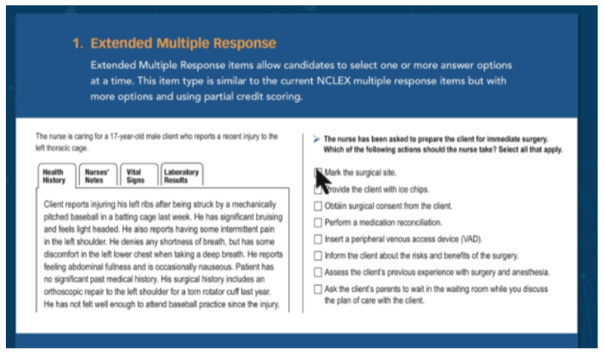
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

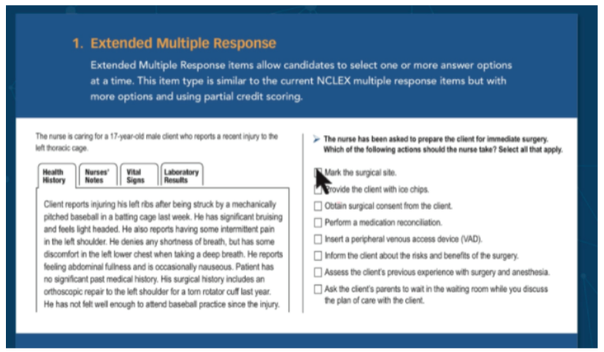
Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

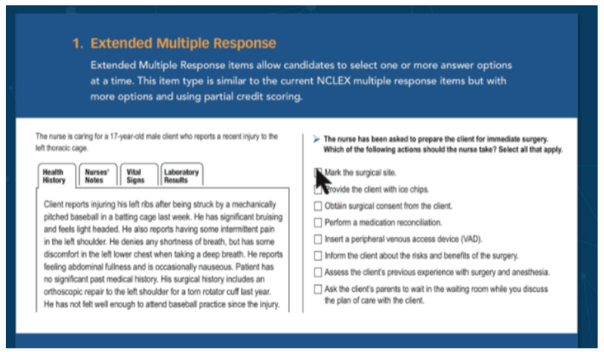
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

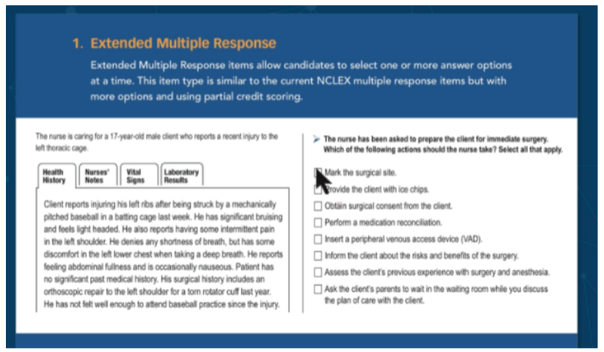
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

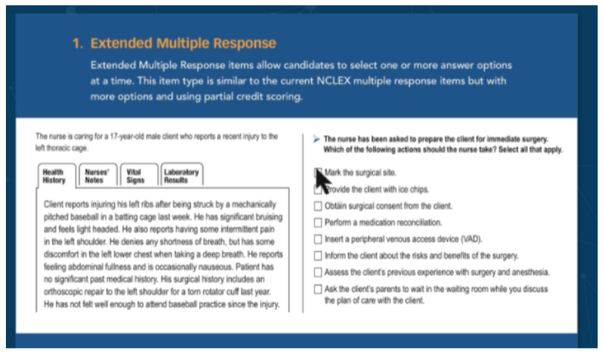
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

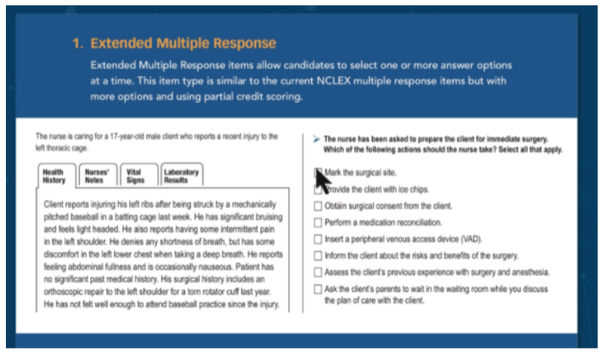
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

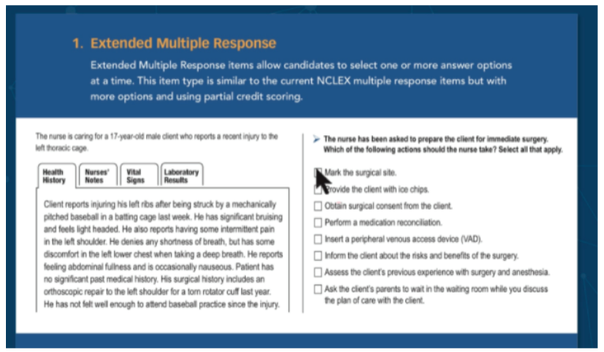
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

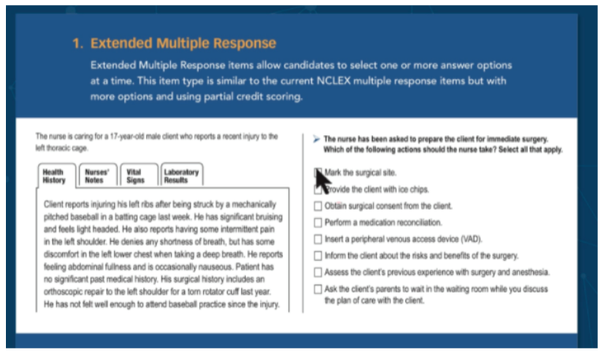
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

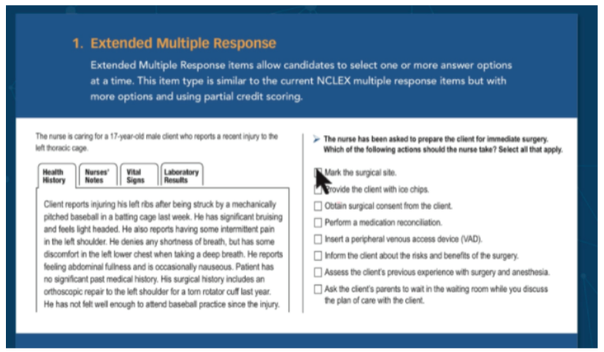
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

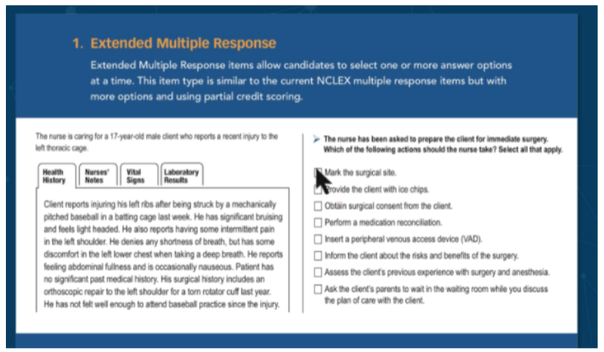
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

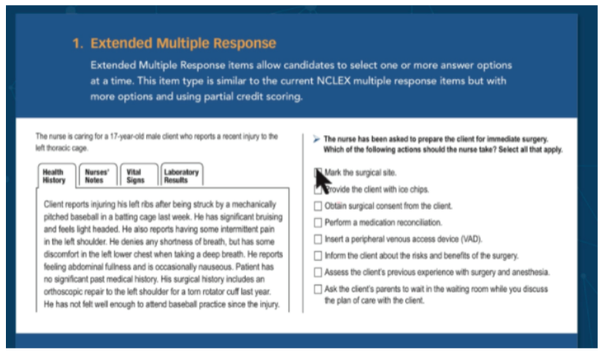
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

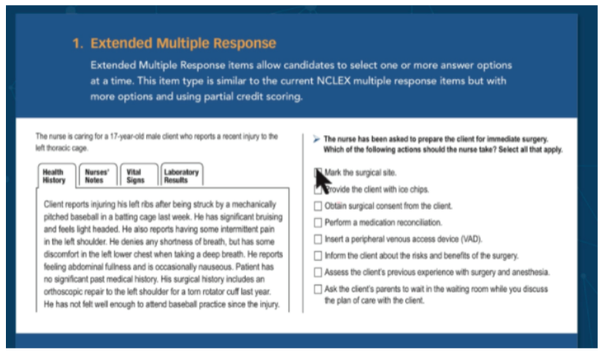
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

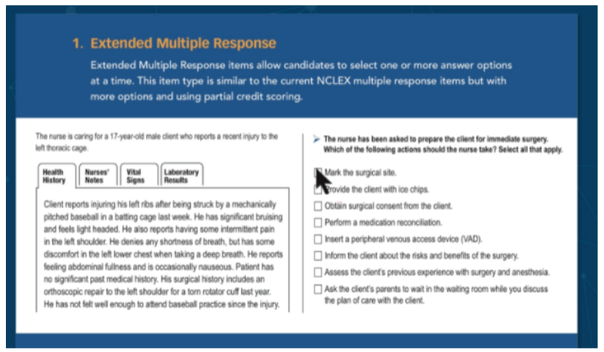
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

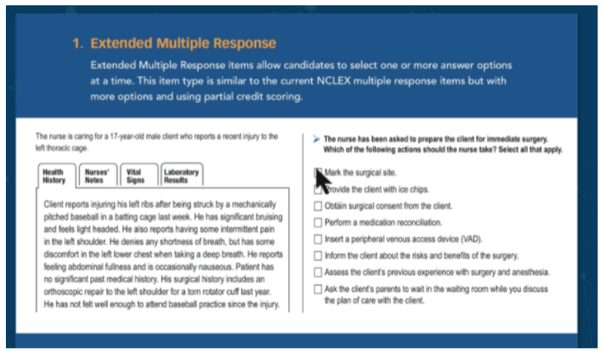
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

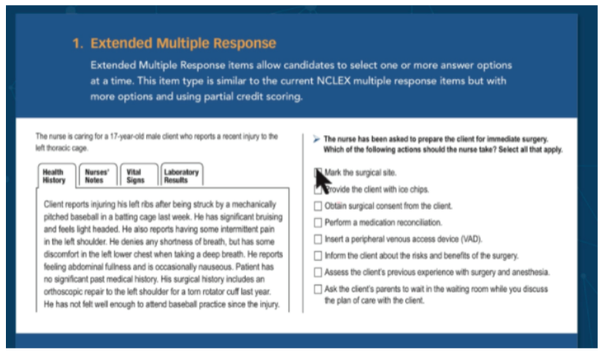
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**

I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

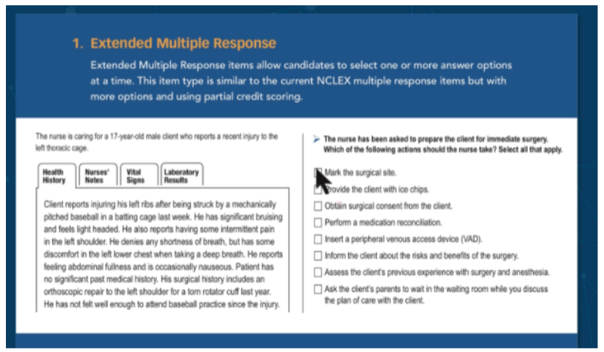
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

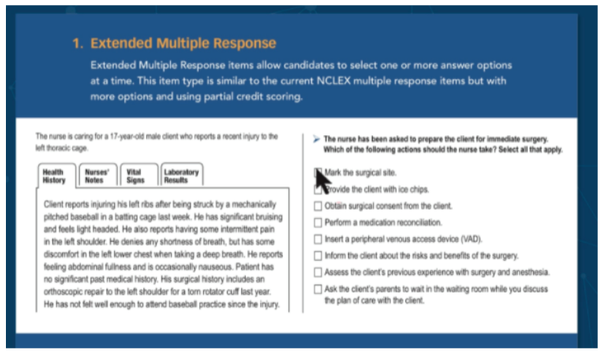
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

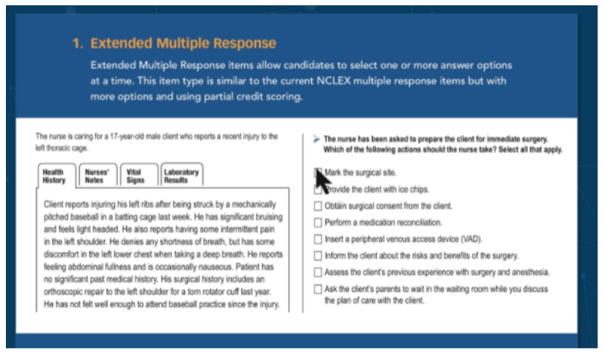
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.

The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

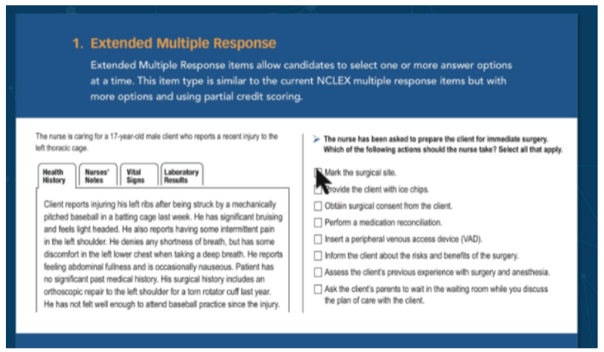
From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

Carl M. Cacciotti, Chairperson

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

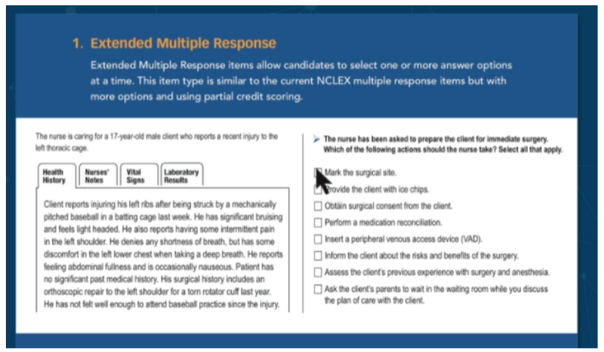
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Mr. and Mrs. Eric Fuller '86
1010 Tamarac Rd
Troy, NY 12180-9248

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

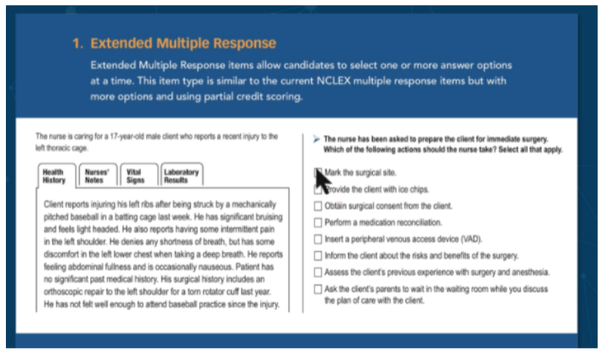
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

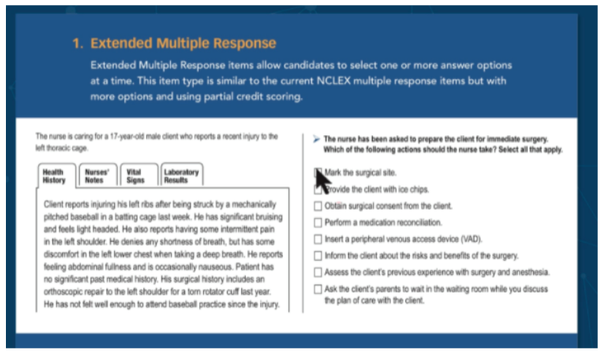
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

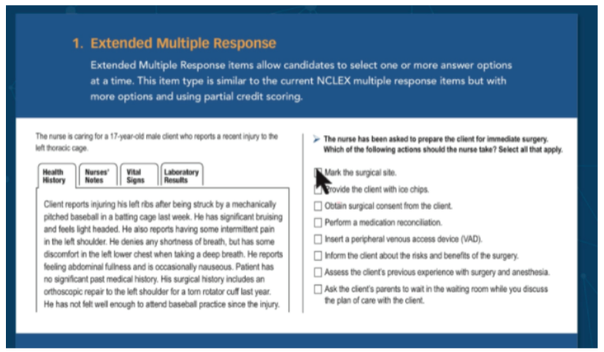
We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

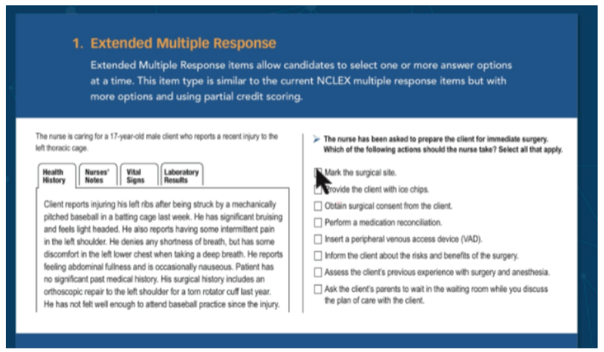
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

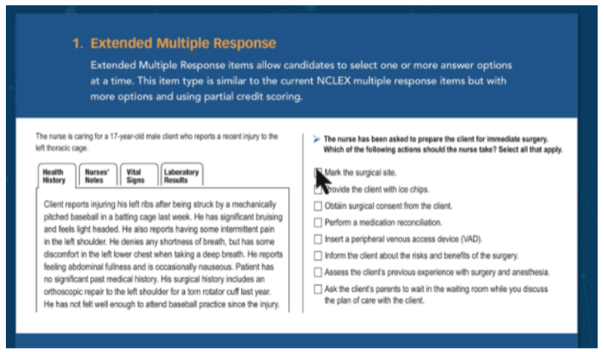
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.

On a final note, I was recently appointed as Judge to Troy City Court. As long as I am ethically permitted, I intend to remain on the board and serve as your president.

Anne L. Coonrad, President

Communications

Please help us in keeping our alumni address list as current and up to date as possible whenever you have changes to yourself or classmates. I also just wanted to remind everyone that the newsletter and information concerning the Alumni Association can be found on the alumni website at St. Peter's Health Partners. (www.SPHP.com). A brief roadmap directly to our link: once you are on SPHP.com click careers, then schools of nursing (left side of page), then Samaritan Hospital School of Nursing, then Alumni Association. This should take you directly to our webpage. So, please be cautious during these challenging times and feel free to contact us if you have any questions pertaining to the Samaritan School of Nursing.

Respectfully submitted,

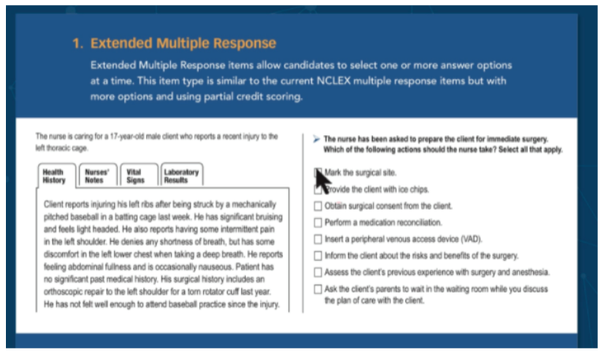
Carl M. Cacciotti, Chairperson

From the Directors Desk

Dear Alumni,

It is hard to believe that two years later, we are still talking about the SARS-CoV-2 pandemic. The pandemic has changed the way we run the school of nursing. I would say, we have a new norm now. In typical nursing fashion, we have adapted, and the students continue to be eager to learn and the faculty eager to teach.

I am happy to share we have significantly updated our lab teaching equipment and simulation equipment. The lab is receiving heavy use from students for a variety of reasons. We have a steady flow of students who may miss clinical due to testing COVID + or family member are + and they are all quarantined. We have also increased use of simulation to complement our teaching/learning modalities. Due to COVID we have not been in pediatric clinical for 2 years! But we have excellent simulations to bridge this gap. We now have two infant mannequins that do just about everything a sick baby does – cry, vomit, display seizure activity, develop bulging fontanels the list goes on and on. We have pediatric mannequins that are equally as realistic and interactive. And we have a new mom mannequin that gives birth, has a prolapsed cord, placenta abruption and other OB emergencies. Students have become so engaged. They cleave to the technology aspect of learning coupled with the safety of learning (and making mistakes) in the lab. They have been requesting extra free time in the lab to work with this equipment and have even asked to attend extra lab classes! This type of learning will be invaluable to help students be successful with the planned changes in the National Council Licensure Examination (NCLEX) scheduled for April 2023.



The National Council of State Boards of Nursing (NCSBN), NCLEX Exam Committee is making sweeping changes to the NCLEX-RN and NCLEX-PN exams. The genesis for this change started many years ago, when the Exam Committee posed one simple question "Is the NCLEX measuring the right thing?" That question led scholars and sages in the nursing profession to discuss and debate novice nurse readiness and ultimately develop a model for clinical judgment to guide and measure novice nurse competence. Integrating this model into the examination questions has created the new terminology "Next Generation NCLEX" (NGN). The NCSBN links clinical judgment to 46% of all tasks performed by entry-level nurses but research has identified a lack of clinical judgement ability amongst novice nurses. Medical errors are the third leading cause of death in the United States. And only 20% of employers are satisfied with new nurses' decision-making ability. The NGN will use a case-based question format, with 6 questions per case that represent aspects of a nurses' clinical judgment.

In December, 29 graduates earned the status of alumni! Our NCLEX pass rates remain impressively high. New York State and national averages for both programs have dropped precipitously since COVID. Below are the most recent 1st time new graduate pass rates for each program:

	Practical Nurse		Registered Nurse	
	2021	**2020**	**2021**	**2020**
Samaritan	87.5 % (7/8)	100% (9/9)	95.08%(58/61)	98.3% (58/59)
NYS average	71.27%	80.59%	63.36%	72.91%
National average	79.50%	86.26%	64.8%	72.23%

The last news I would like to share is that the Nursing School Almanac annually ranks nursing programs in the state. I am delighted to share the Samaritan School of Nursing LPN program ranks #10 in New York State and the RN program ranks # 6.

Hope all of you are well. Stay safe!

Patricia Cannistraci, Dean

Halfmoon, NY 12065-8512

Nominating Committee: We are looking for two people who have an interest in becoming Alumni Board members. The positions that are opened are a chairperson for the Belknap Fund or working with the SPHP Foundation to publish the Newsletter. The Belknap Fund Committee reviews applicants who wish to receive a Scholarship. The Alumni Committee meets five time a year to address committee business and two-member meeting in May and November.

Historic: No new committee business. A big thankyou to the Samaritan School of Nursing Library staff who are putting school pictures in photo albums by dates and developed a revolving picture display of past classes. These will be displayed in the SON Library.

Sincerely,
Gail Moore, Chairperson

Belknap Fund

We encourage all Samaritan Alumni to apply for the Belknap Scholarship while pursuing their Masters degree or beyond. Application can be found on the Samaritan Hospital School of Nursing website. This is disbursed annually in December of each year. Annual Alumni dues must be paid by February 1st to be considered for the scholarship.

— Martine Grignon, Belknap Chair

Seber Fund

Fall 2021
4 awards of $250.00 each given

The William F. and Josephine H. Seber Scholarship is awarded to:
Any Samaritan graduate who is a member of the Alumni, in good standing i.e. has paid yearly dues for the current year prior to February 1st of said year OR a female student in the Registered Nurse program of the Samaritan Hospital School of Nursing. Members must be matriculated into a nursing program.
Applications must be received by the Seber Fund Committee at least one month prior to the beginning of the semester.
You must reapply every semester. Lifetime total award is $ 2,500.
Applications may be obtained from the financial aid officer at the School of Nursing or downloaded from the Alumni/school website.

Alumni News

Spring 2022

From the President's Desk

Hello to all my fellow alumni members.
It's been a long winter. I'm sure everyone is looking forward to warmer weather and a return of some semblance of normalcy. For our alumni members who have been practicing over the past two years of the pandemic, we support you.

I would like to publically thank the countless alumni members who generously donated money to our association. It is the board's intention to invest the $1000.00 dollars of unspecified gifts to one of our funds.

The board is in need of new members. Not only do we have vacancies on the executive committee, but our various committees are in need of committee members. The commitment of time is not overly burdensome. Please reach out if you are interested.
